

notes on S. McMeekin, Stalin's War

p. 65-67 \* ignorant of the extent of Soviet Red Army interference amounting to outright instigation of Chinese Civil War.

↓  
Stalin played both sides (Mao + Chiang) in order to ensure that it would be Chinese and not (mainly) Russian troops killed by Japanese.

• William Bullitt: "It was the heartiest hope of the Soviet Government that the U.S. will become involved in a war with Japan."

+ Stalin orchestrated conditions by which Lenin's dream would come to pass → the "capitalist" powers would be drawn into a grand war against one another.

BIG IDEA: GET RID OF THE HISTORICAL CIRCUIT BREAKERS THAT HAD CONTINUED INVESTIGATION + EVALUATION

EX: Stalin's War vs. Hitler's War argument doesn't make one (ex. McMeekin) a Nazi sympathizer.

EX: favoring states' rights / secession / federalism or being against Lincoln does not render one an advocate of chattel slavery.

EX: being an anarchist does not mean one favors chaos + calamity.

Q: ARE THERE CIRCUIT BREAKERS IN X-FANITY?  
(DESTRUCTIVE)

professional  
mess  
Court  
historians.

# Dushan Report

p. 83 • Stalin forged non-aggression pact with Germany  
in order to ensure war.

p. 112-113 Churchill as big a Stalin - dupe as anyone.  
ex. early in war, Churchill wanted Stalin to move  
against Baltics to strangle German economy.

\* person to look up = Dorothea Morreheim; White Devils.

on sleepish American + British support to Soviets:

- Churchill diverted resources and material to USSR  
at the height of the Battle of Britain (!)
- Roosevelt broke the law in lend-lease to  
USSR before Pearl Harbor (Neutrality Act)

\* Stalin

ordered  
spying +  
intimidation  
of American  
Sisters,  
including Taft +  
Lindbergh

but remarkably converted Stalin  
when, in correspondence, he would  
use the word "sole"

essentially all aid was free!

"eliminate the silly, old, foolish \$"  
(404)

\* from U.S. Ambassador to Washington officials, if one was not  
100% for Stalin, one was removed.

cf. Harry Hopkins, Harry Dexter White.

\*\*\*

Roosevelt, in true Truman fashion, intimated to Stalin + Molotov that Allies would strike at Hitler's Fortress Europe as early as early 1942

"could be another Dunkirk and lose  
100,000 - 120,000 men" to no avail. (!!!)  
(407)

\*\*\*

huge increase in American war material /  
industrial equipment and to USSR in '43:

only thing left out: mine detectors

General Ivan Kotov: "in the Soviet Union, we use  
people" to clear mines (!!!)  
(463)

(489)

!!!

Roosevelt to Bullitt: "hard quote" of utter obsequiousness  
to Stalin, thought that Stalin would  
cooperate with him for a "democratic post-war world"

\*\*\*

EVERYONE got sold down the river by Roosevelt at Yalta in  
order to appease Stalin

1. Poland + Eastern Europe (no Ballo invasion to stop Red Army)
2. Churchill + Britain
3. Chinese Kuomintang + Chiang-Kai-shek

(514-15)

(even cooperation plus remission of Dien in Vietnam)

\*\*\*

the absolute + continued deluge of war material + aid  
to Soviets was ensured by Hopkins

after an American Airlines plane bumped up against a Soviet  
plane at Nash Airport, Kotelov demanded pilot's  
evacuation (!); did not get it, but

Nash airport was turned over to exclusive  
Soviet use 'til the end of war!

ME: this for a country that loaned  
its port with Japan, imprisoned  
American pilots & downed in the Russian  
for evts, and refused to allow  
American advisors into USSR!

on the homefront: Soviets were fed on the agricultural surpluses  
of American capitalism;

all the while, post-Depression Americans  
bore the brunt of rationing at home.  
cf. Marie Jagne of Uxbridge, OH. (523)

ex. crab population declined in Pacific NW because Lend-Lease  
program granted Russian fishing vessels to haul crab  
back home - at N.S. expense!!! (524)

(527) "Reading through the minutes of Harry Hopkins's Soviet protocol committee from 1943; it is hard to escape the impression that Soviet agents of ~~Harry H~~ influence had taken over the White House." \*\*\*

\* 3rd protocol price tag = in industrial and energy commodities + equipment = \$401 million or \$40 billion today.

more in patents/  
Intellectual property

WHOA! MOST SHOCKING =

lend-lease requisition of February 1, 1943:  
ENRICHED URANIUM (!!!)

\* had started the Soviet  
atomic bomb program

\* insane, counter-productive, retributive  
Morgenthau plan

Soviets ultimate beneficiaries.  
(ex. Battle of the Bulge,  
25,000 dead Americans)

(590) Eastern Europe was lost even before Red Army occupation  
by Churchill + Roosevelt's obsequiousness

Stalin would receive more than Ribbentrop agreement;  
more than his wildest dream.

ME: Churchill knew the inevitable and saw it transpire:  
the great old capitals of Eastern Europe  
fell one after the other.  
"Iron Mettle in the Baltic. . ."

ME: SO MUCH EMPHASIS IN AMERICAN  
SCHOOLS ABOUT "FOULY OF APPEASEMENT")  
WHEN, IN REALITY, WAR WAS WAGED  
BY ROOSEVELT + STALIN OFTEN TO  
APPEASE, PLACATE STALIN.

That's the real appeasement:  
and it knew no bounds.
